- Tempered Glass Doors
- Granite Mantle
- Stainless Steel Storage Box
- Wood Burning Option

Air Quality Restrictions and Wood Burning Regulations.

Our wood-fired ovens and gas/wood combination ovens are usually classified as wood burning (solid fuel) cooking equipment and are often exempt from wood burning restrictions that pertain to wood stoves and other wood-fired heating appliances. If there are wood burning restrictions in your area, please check with the appropriate local and state air quality agencies to determine what, if any, restrictions may apply to solid fuel burning cooking equipment. For areas where wood burning is restricted, our gas-fired ovens are an exceptional alternative.

job name:

model:

WS-BH-4343

item#:

fuel type:

Gas-Fired, Wood-Fired or Combination

FEATURES

- Standard door opening: 24.5 inches wide x 9.75 inches high
- 6.4 square feet of cooking surface which allows for the preparation of an array of foods - perfect for entertaining
- Comes standard with a programmable heat-up timer allowing you to set the oven to turn on so it is automatically up to temperature when you are ready to cook
- Monolithic ceramic floor and monolithic dome provide greater strength and more even heat distribution (compared to tile floors and multi-piece domes)
- Ceramic interior is heated by an adjustable radiant flame burner in the back of the oven which provides a powerful and attractive yellow flame
- Appliance body and control panel are enclosed with stainless steel and the service panel and toe kick are made of stainless steel. The unit is supported by a black, heavy-duty steel stand
- Only 1-inch side and back clearance to combustible building materials required
- ETL Listed for residential indoor or outdoor installation
- Comes standard with stainless steel mantle and log set
- Made in the USA

The oven arrives assembled and ready for installation. For ease of installation the oven can be disassembled to fit through 32-inch openings. Facade by others.
